

International Conference

ADVANCES IN GRAIN LEGUME CULTIVATION AND USE

TRANSLATING LEGUME RESEARCH INTO END-USERS REALITY

27-28 SEPTEMBER 2017, HOTEL PARK, NOVJ SAD, SERBIA

This conference marks the final year of two EU-KBBE projects devoted to Grain Legumes, [LEGATO](#) and [EUROLEGUME](#), and thus the complementarity of the scientific and technical outputs developed by more than 100 researchers, from both projects. This occasion will disseminate highlights from the research accomplished, to stakeholders and society in general in a stimulating programme including leading EU project and invited speakers. The Conference is also open for receiving free communications from the project members and from other teams not belonging to the projects, to be presented as posters/oral communications.

Invited plenary speakers

Professor Timothy Close (UC Riverside, USA)
 Professor Moira Dean (QU Belfast, UK)
 Dr. Stephanie Mittermaier (IVV, München, D)
 Professor Mark Peoples (CSIRO, Canberra, AU)
 Dr. Thomas Nemecek (Agroscope, Zürich, CH)

Sessions

Genetics and breeding
 Enhancing legume quality for food and feed
 Defining legume ideotypes, root phenotyping and symbiotic interactions
 Legumes in cropping systems
 Coping with environmental stresses and climate change

Round-tables

Increasing legume consumption
 Increasing legume cultivation

Poster session with flash presentations

Legume Show Cooking event with leading chefs!

Meeting location: Novi Sad, Serbia

The conference will be hosted at the 5* Hotel Park (<http://www.hotelparkns.com/en/>), in Serbia's second city, Novi Sad, which is a 1h coach drive from Belgrade airport. Novi Sad is an attractive tourist destination located on the Danube, with the 17th century citadel overlooking the town centre from the opposing bank of the river.

Registration and Abstract submission

Participants should register through the [Conference website](#). Free contributions are welcomed and the abstracts (250 words) should also be submitted by the same channel. [Deadline for Registration and Abstract Submission: 31 May 2017](#)

Legato and Eurolegume have received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreements no. 613551 and no. 613781.
